Education

2018 February-June

Advanced courses C++ in IT laboratory (YSU IAP faculty 5th floor).

2017 March-July

Web programming lessons in beeoncode.com

since 2016 September

Yerevan State University, Armenia
BSc in Informatics and Applied Mathematics

University Projects

C++   Projects: Designed and implemented an algorithms.

Web Developer & Designer.

Major components of the project:

- Design of the necessary algorithms.
- Detailed, illustrative documentation of the solution.

Environments and Tools

- C++, STL, Data Structures,GUI (QT),
  Computer Architecture, Assembler Protected & Real Mode,
  No professional abilites HTML, CSS, JS, JQuery PHP, (PHP_OOP medium).
- Deeply Studied
  Mathematical & Complex Analysis
  Discrete mathematics,
  Linear Algebra
  Graph Theory (now)
- Now learning Linux (Ubuntu).

Languages

Armenian, English, Russian, *Deutsch*.

Interests

Professional: Programming, Artificial Inteligence, Math, Machine learning.

Other: Economics, Philosophy, History of Computer, History of Armenia.

Sports: Enjoy a wide spectrum of sports: swimming, wrestling, cycling, camping.
